SUBJECT: Dispatch Console Purchase

On September 17th, 2012, Coffeyville City Hall received damage from a lightning strike during a storm. This damage included the primary dispatch radio console which was disabled and is not able to be repaired. The damaged console was a Zetron model 4010.

On September 25th I briefed the Commission on the extent of the damage. Research was conducted on similar brand consoles and compared to upgraded consoles. It is the opinion of the police department that the best option for the community is to replace the console with a new Zetron model 4010. This recommendation was also the least expensive option.

After researching these options, I requested price quotes from area communications dealers and a quote directly from Zetron, Inc. Additionally I requested price quotes on a similar Motorola dispatch console and a GAI-Tronics console. The comparable Motorola console was recently discontinued. The GAI-Tronics console was similar in price however there are concerns about the availability of qualified technicians to service the equipment.

I am requesting authorization to purchase a Zetron 4010 dispatch console from First Wireless, Inc. based in Wichita, KS, for the amount of $9,672.00. This purchase will be funded through the 911 Emergency Fund.
